

FIRE IN MINNESOTA ECOSYSTEMS

January 29-30 2020

Cloquet Forestry Center

This two-day event will explore how fire has shaped Minnesota's natural systems and how land managers can safely reintroduce fire where appropriate. Sessions and panel discussions will focus on fire effects in pine- and oak-dominated forest and woodland communities and in the aspen parklands system. These discussions are planned with and for the diverse community interacting around fire-related issues, and seek to build the understanding and communication to support further work toward collaborative solutions.

Dates: January 29-30, 2020

Location: Cloquet Forestry Center, 175 University Road, Cloquet, MN 55720

Cost: \$100 SFEC members, \$60 students, \$180 others

Registration includes two lunches and refreshments

Details and registration: sfec.cfans.umn.edu/2019-fire-in-mn-ecosystems
