

# RESTORING FIRE-DEPENDENT WOODLANDS THROUGH THE SAND PLAINS PARTNERSHIP

*A presentation in the SFEC & UMN Extension 2020 Forestry Webinar Series*

**Tuesday, June 16, 2020**

Andrea Brandon, *The Nature Conservancy*

The Sand Plains Partnership is a new collaborative partnership focused on improving forest health, ecological complexity, cultural value, and wildlife habitat by restoring fire-dependent woodlands within the Leech Lake Band of Ojibwe Reservation and Chippewa National Forest lands. Originating out of the Leech Lake Band's interest to see forests and woodlands managed for the protection of Tribal Trust Resources, the Sand Plain Partnership emerged as an opportunity to meet Leech Lake Band desired vegetation conditions, while engaging a diverse set of stakeholders on crafting a shared vision of a restoration landscape.

**Date:** Tuesday, June 16, 2020 noon-1pm central time

**Location:** Watch online or attend a broadcast site

**Cost:** Free at a broadcast location, \$50 for the entire 2020 webinar series, or \$20 each

**Details and registration:** [z.umn.edu/20web](https://z.umn.edu/20web)
